Vincent Paternoster reported that the association provided \$500 to Half Moon Bay YC to cover losses resulting from the 2011 North American Championships.

New business:

Becky Tobin expressed the need to consider a larger window in the jib to provide better visibility to the oncoming traffic.

The matter was brought up 2 years ago but there was no followup.

A committee was appointed made up of Barrette Sprout, Charlie Quest and Becky Tobin to research the feasibility of such change and solicit comments from the owner community. A report on the matter should be made by the committee to the Commodore by Labor day, with recommended changes to the by-laws. The association members will be invited to vote on the by-law changes.

John Richardson proposed to review the by-laws currently posted on the coronado15 web site for editorial changes.

2013 North American Championships:

The location for next year championship was discussed.

A proposal was made to hold the event in the Seattle area, given the fact that there are 17 boats registered in the Beaux Arts Racing Fleet (BARF, Bellevue, Washington).

Roger Hoesterey was tasked to look into whether BARF would be willing to hold the event.

The following officers were voted in in with a show of hands:
